ACCOMPANYING NOTES TO THE FINANCIAL STATEMENTS

1. Significant Accounting Policies & Notes on Accounts.

a) Method of Accounting

- i) The accounts of the Company are prepared under the historical cost convention using the accrual method of accounting unless otherwise stated hereinafter.
- ii) Accounting policies are consistent with generally accepted accounting principles.

b) Fixed Assets

Fixed assets are stated at cost except in the case of plant and machinery, which have been shown at revalued amount. Cost includes financing cost till the commencement of commercial production, inward freight, duties & taxes, incidental expenses related to acquisition and is net of MODVAT / CENVAT. In respect of major projects involving construction, related pre-operational expenses form part of the value of the assets capitalized.

Fixed assets acquired under hire purchase schemes are capitalized at their principal value and hire charges are expensed. Fixed assets taken on lease are not treated as assets of the company and lease rentals are charged off as revenue expenses.

Spares received along with the plant or equipment and those purchased subsequently for specific machines and having irregular use are being capitalized.

As per practice, expenses incurred on modernization / de-bottlenecking / relocation / relining of plant and equipment are capitalized. Consideration is given at each balance sheet date to determine whether there is any indication of impairment of the carrying amount of the company's fixed assets. If any indication exists, an asset's recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is the greater of the net selling price and value in use.

c) Inventories

Inventories (including licences in hand) are valued at lower of cost or net realisable value. Cost is determined using the First in First out (FIFO) formula. Finished goods and stock in process include cost of conversion and other costs incurred in bringing the inventories to their present location and conditions. Cost of machinery spares which can be used only in connection with plant & machinery and whose use is expected to be irregular are amortized proportionately over a period of residual useful life of machinery as technically evaluated. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the company.

d) Foreign Currency Fluctuations

Foreign currency loans under Exchange Risk Administration Scheme (ERAS) and of ADB line of credit have been reflected in Indian Rupees at the rates prevailing at the time of disbursement/conversion.

Gains / Losses due to Foreign Exchange fluctuations arising out of the settlement including those related to fixed assets are dealt within the profit and loss account.

Foreign currency current assets and liabilities are converted into Rupee at the exchange rate prevailing on the Balance Sheet date and the resultant gains / losses are reflected in the profit and loss account.

e) Depreciation

Depreciation has been calculated on fixed assets on straight line method in accordance with schedule XIV of the Companies Act, 1956 except for building, vehicle, new line and power plant where depreciation is calculated on written down value method.

The Company used to provide depreciation upto 95% of assets value. From 01.10.2009 the Company is providing depreciation keeping the residual value to Re.1 instead of 5%.

Depreciation on amounts capitalized on account of foreign currency fluctuations, is provided prospectively over the residual life of the assets.

Depreciation on revalued assets is calculated on straight line method over the residual life of the respective assets as estimated by the valuer. The additional charge for depreciation on account of revaluation is withdrawn from the revaluation reserve and credited to the profit & loss account.
